

RING SIZE GUIDE

Before measuring your ring size, make sure this guide is printed in A4 size and scaled to 100%. You can check the accuracy of your print by placing a credit or debit card on the line below. If the card aligns, you can continue with the next step.

Measure by matching a ring you already have that fits you well to find the size of your Sissai ring. Match the inside of your ring with one of the circles below, taking into account only the center of the ring and not the edges for the measurement. If your ideal size is between two sizes, we recommend choosing the larger size.

If you have any questions or we can help you with something else you can contact us by writing to hello@sissai.com
